**CIPP** — Certified Information Privacy Professional — iapp

**CIPM** — Certified Information Privacy Manager — iapp

**CIPT** — Certified Information Privacy Technologist — iapp

# Fast Lane

## Advance my career?
## Increase my earning potential?
## Elevate my leadership profile?

## Yes, please.

Whether you manage day–to-day operations, you're implementing privacy controls in technology or you're the go-to person for privacy laws and regulations, we've got you covered.

## IAPP Certification Programs

### The "what"

**Certified Information Privacy Professional (CIPP)**

The CIPP credential shows that you understand the laws, regulations, frameworks and standards around privacy.

### The "how"

**Certified Information Privacy Manager (CIPM)**

The CIPM shows you understand the operational aspects of privacy program management.

**Certified Information Privacy Technologist (CIPT)**

The CIPT shows that you know how to manage and build privacy requirements and controls into technology.

*Online and in-person training can help you build your knowledge base and prepare for your exams.*
